Education

National University Laguna

Bachelor of Science in Information Technology

Aug. 2022 – July 2026

Experience

UI/UX Designer

Blueshift Energy (Contractual)

July 2026 - Sep. 2026

- Designed responsive commercial and residential solar landing pages with a focus on visual hierarchy.
- Built Figma variables, components, and interactions to maintain a scalable, consistent design system.

UI/UX Design Intern

KMC Solutions (Internship)

Jan. 2026 – May 2026

- Designed end-to-end flows and high-fidelity mockups for HR expense, onboarding, and team management tools.
- Redesigned responsive career and workspace portals, iterating through A/B testing and design critiques.

Data Entry & Design Assistant

Improbable Labs (Part-Time, Remote)

Sep. 2025 – Mar. 2026

- Created app store preview assets and marketing visuals that improved app store visibility and boost user engagement.
- Researched competitor app listings and user search behavior to optimize discoverability and keyword placement.

Awards

1st Runner Up | Protothon 2026: The Online UX Hackathon

May 2026

- Designed Trackify, an enterprise inventory system featuring real-time tracking, barcode integration, and analytics; placed 2nd out of 35 teams in the Enterprise track.

Projects

Trackify: Inventory Management System | Figma, Rapid Prototyping

May 2026

- Delivered 15+ high-fidelity screens in a 24-hour timeframe, with user flows for analytics visualizations and logistics.
- Built interactive prototypes and validated user flows through peer critiques and based on a property custodian persona.

Lakbay Calamba: Interactive Tourism Platform | PHP, Laravel, MySQL, JavaScript, Figma

July – Oct. 2025

- Led the design for 3 user roles (admin, establishment, tourist), creating working prototypes that guided full-stack development.
- Developed an interactive digital map using Google Maps API, improving tourist navigation for the Calamba tourism office.

Payonnect: QR-Based Umbrella Sharing App | Figma, Adobe Photoshop, Adobe Stock, Canva

Oct. 2025

- Mapped a complete user flow for borrowing and returning umbrellas through QR code scanning.
- Established a UI kit with defined typography, color palette, and component hierarchy to ensure brand recognition.

CosMarket: Cosplay E-Commerce Platform | Figma, Adobe Photoshop, Canva

Mar. 2025 - Apr. 2025

- Conducted user research within cosplay communities to identify pain points in buying, selling, and trading costumes.
- Created page designs for item browsing and checkout that addressed friction points in the marketplace.

RFID-Based Student Discipline Tracking System | PHP, MySQL, HTML, CSS, JavaScript

Nov. 2024 - Mar. 2025

- Developed the frontend pages tailored for the NU Laguna Student Discipline Office to manage over 500 student profiles.
- Translated Figma designs into responsive PHP frontend components, including profiles, registration flows, and dashboards.

Certifications

Graphic Design Essentials (Canva)

June 2026

Microsoft UX Design Specialization (Microsoft)

February 2026

Microsoft IT Support Specialist (Microsoft)

January 2026
